

Cobra DigiCartAPP

Simple. Mobile. Measuring.

The PHYWE DigiCartAPP is THE app for the simple and fast recording of measured values and evaluation of kinematic experiments in your digital science lessons.

How does a uniformly accelerated vehicle behave? What happens when a vehicle is braked? Answers to these and many more questions can be found in the 12 integrated test descriptions that you can carry out with the Cobra DigiCart and PHYWE DigiCartAPP.

Advantages

- **Simplicity** - Direct measurement and evaluation in one app
- **User-friendliness** - Simple and intuitive handling of the app through user-oriented design and a complete overview of all available experiments
- **Connectivity** - Wireless data exchange and connection of Cobra DigiCarts via Bluetooth
- **Visualisation** - Graphical and digital visualisation of the measured data
- **Completeness** - Find and open more than 12 experiment descriptions directly in the app
- **Multilingualism** - availability of the app in 3 languages (German, English and Russian)
- **Platform independence** - availability of the app for all operating systems (iOS, Android, Windows, MacOS)

Technical requirements

- Apple iPad (from iOS 12.0), Android Tablet (from Android 6.0), Windows (from version 10), Apple Mac (from MacOS 10.13)
- Active Bluetooth connection
